

CELEBRATE LIFE Anyway!

Brain Injury Clubhouse and Resource Center

We are determined to create social, cognitive & recreational programs that enhance and enrich the lives of adults living with traumatic brain injuries. All of our programs are designed to have entry level, growth and higher level functioning tasks, with small peer groups formed to match like-minded survivors. One goal is to end the social isolation that most TBI survivors experience by giving them the opportunities and the skills to develop uplifting interpersonal relationships. Workshops focus on all areas of recovery; physical, mental and financial wellness. Celebrate Life Anyway allows survivors to live a life of their choosing, in spite of any perceived limitations due to disABILITY.

CELEBRATE LIFE ANYWAY!

Survivor Favorites

Wednesday Dinner Club: A weekly social club that meets at various restaurants in the community to allow participants opportunities to practice skills necessary to dine out. I.e. menu selection, budget including tax & tip, ordering etc.

FriYAY!: A weekly meetup that focuses on growing interpersonal relationships through related games and activities.

Card Sharks: Survivors are selected to be game show contestants on CARD SHARKS Live! A fully immersive live game show with all the lights and glitter of a simulated studio taping! Contestants practice virtual money management in a lively game.

LIGHTS, CAMERA, ACTION!

ADMITTED ONE

Programs Overview

Social Programs: Weekly opportunities for participants to enjoy fun activities with a goal of re-learning the skills necessary to form interpersonal relationships that lead to meaningful friendships and connections.

Growth Programs: Weekly workshops that are academic in nature and geared toward the specific needs of a brain injury survivor, including time orientation, money skills, reading, writing and communicating.

***TBA:** Financial Wellness Empowerment, Education and Counseling

Emotional Support Programs: Weekly meetings that allow opportunity for individualized support and training, as well as small group activities led by Specialists from various fields of lifeskills, including career, financial, medical professionals.

Physical Programs: Including strength training, outdoor bike rides, adaptive yoga.

Vocational Programs: Public speaking and story-telling workshops to become VIP Speakers with the ThinkFirst National Organization centered on brain and spinal cord injury awareness to school districts.

Service Programs: TMWL: Reaching outside of the brain injury community to support other charitable causes like domestic violence through a program called “To Mom, With Love”.
